31 Jan

G

Attached is the Suggestion and Invention Awards Performance Record for the first half of FY 1968.

2. SAC File

3. Our adoption rate and average cash award rate is lower than the FY 1967 average. However, many potential award cases are still pending which should raise the rate considerably.

4. The participation volume for the past six months is higher than the normal average. If we continue at the present pace for the remainder of FY 1968 we will have exceeded the FY 1967 volume by about 75 eligible and over 100 total suggestions.

5. If evaluations can be expedited during the remainder of FY 1968, we will attain a very good record.
